

Concerned Citizen ASK

date

To Representative Name,

As a concerned citizen I recognize that our children with cancer in the United States are not a priority in the medical research system, where cancer is the leading disease-related cause of death in children in the USA. Please cosponsor and support H. Res. 114, the DIPG Awareness Resolution. We must do better for our children. No parent should hear that there are no solutions for their child because, "the numbers aren't great enough for investors," but here we are, in the wealthiest country in the world, boasting the greatest technologies. Saving our children simply needs to be a priority.

Thank you for honoring my request as your constituent.

Very truly yours,

Name
