

Sample Phone Script

for supporting [H. Res. 114](#):

“Hello, my name is _____ and I'd like my Representative _____ to please cosponsor H. Res. 114. It raises public awareness to the lack of solutions for children with cancer and asks for greater support. It also help ensure greater national public awareness to the problem.”

The staff member may say that the Representative supports X, Y, or Z bill... which is great, like the STAR Act, RACE, 21th Century Cures; just remind them that, the status quo of scarce solutions for our kids continues with no guarantees of improvement anytime soon. Children with brain cancer continue to die daily.

You can say also:

“Over the past decade on any given year, the federal government has not directly purposed any more than 4% of it's annual NCI budget for pediatric cancer. We can do so much better, and we must, for our children, for our future. The general public is generally unaware of this, and this bill is a plea for greater public awareness, and hope.”

And:

“I would appreciate it very much if Congressman (or Congresswoman) _____ would respect my wishes and support this completely grassroots bill that reflects my hopes and the hopes of parents across the United States. Thank you so much!”
