

How to support

House Resolution 114 (H. Res. 114)

The National DIPG Awareness Resolution

--supporting awareness for the urgent need for elevated consideration of pediatric and high-risk cancers for research

Who? -can support it?

ANY U.S. Resident/Citizen OF ANY AGE

HOW? –what do I do

Ask your Representative to “cosponsor” or sign in support.

You may do one or all of the following actions:

1. Find out who your House Representative is: congress.gov/members
2. Then, see if your Rep has signed on or not. On that same site, click “Legislation” in the upper-right; it will bring you a search-box.. Type in HRes114, and there will be a link to see the cosponsors.
3. Every House Rep has a website with the opportunity to write an email letter provided you give your address to prove constituency. This is one way to make the request.
4. Call the Washington DC office and let whoever answers know your request; also call the District office closest to you. Even better, make an appointment with your Rep at the District office.
5. **AND/OR, you may of course have us do this for you. We can make an appointment at the DC office on our next trip to Washington; just follow the steps in the yellow box.***

Our Group highly recommends doing as many of these actions as possible. Offices get boat-loads of requests and messages. Repeated exposure to the idea is what gets it across the line—also, personal contact with the Representative, him or herself. Also, encourage family, friends, any concerned citizens to do this as well. This increases the probability of your success!

?—**What if my Rep is already a cosponsor?** Then encourage your Senators to cosponsor the Senate Resolution before it’s introduced in May. See information about it at DIPGadvocacy.org.
